

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. HARVARD COLLEGE LIBRARY

JUN 30 1915
CHARLES ELLIOTT PERKINS
MEMORIAL COLLECTION
(1893)

Entered according to Act of Congress in the year 1892, by CHARLES F. SPAHN, in the Office of the Librarian of Congress at Washington, D. C.

INTRODUCTORY.

THE ST. LOUIS COUNTY DIRECTORY, it is believed, will be warmly welcomed by a large class of business men of the City and County of St. Louis and elsewhere, supplying, as it does, a desideratum long felt by them.

Its practical merit and utility will be recognized at a glance.

The name, occupation and post-office address of every tax-payer residing in the County of St. Louis, numbering nearly 8,000 in all, are given in alphabetical order, by townships, and whether owning real or personal property, or both, indicated by the letter "P" and "R" opposite each name.

The book will thus be found of great convenience to the business man desiring direct communication with any particular customer or patron, or in making new business acquaintances in any special line of industry.

As an extensive and reliable Mailing List it offers exceptional advantages for sending out Circulars, Catalogues, Prospectuses, Pamphlets, Samples, etc.

WHOLESALE AND RETAIL

Garden, Grass and Flower

The demand for our Garden Seeds has so increased that we are now growing most of the staple sorts, giving personal inspection to the growing, selecting and harvesting of them.

It is our interest to sell only the true and reliable and spare neither time nor money to be sure of doing it.

A complete descriptive Catalogue issued January 1st of each year in English and German, free to all.

In August send for our Seed Wheat Circular and prices. We will have some new sorts that have been tested and should be tried.

ALWAYS IN THE LEAD BECAUSE

THE BUCKEYE has the four CARDINAL VIRTUES:

BEST OF MATERIAL, LICHTEST DRAFT, PERFECTION OF WORK And DURABILITY.

Hay cutting demands the best mechanism. The BUCKEYE MOWER is justly called the Great Haymaker of the World.

THE BUCKEYE FRAMELESS BINDER HAS NO NEEDLESS PARTS.

It is free from Complications.

Each part is made for use, not show.

It has fewer parts than any other Binder. It is the perfection of simplicity.

COMPLICATED MECHANISM MAKES HEAVY DRAFT.

From the increase of our Binder Twine trade we realize that farmers appreciate a good quality of twine. To be genuine, our twine must be tagged.

Chieftain Hand and Self-dump HAY RAKES and HAY TEDDERS.
